Subject: North Tank Repainting

Dear Customer:

As part of its ongoing infrastructure maintenance program, the Authority awarded a contract on April 26, 2016 to repaint the North tank adjacent to your property. This tank was rehabilitated in 1994 and we fully expect another twenty to twenty five years of service before the need to repaint arises again.

Our contractor, A-1 Industrial Painting, will begin work on or about July 10, 2017 and will adhere to the Indiana Township rules regarding work hours of 7AM to 6PM with no work allowed on Sundays and Holidays. The initial phases of the project will entail elevated noise levels associated with the removal of the existing paint system to assure a prolonged service life of the new paint system. Please be patient as this will be done as quickly as possible weather conditions permitting. We anticipate completion by the end of October.

Should you have any concerns arising from the project I may be reached at our office (412-963-0212) Monday through Friday between 8AM and 4:30PM.

Sincerely,

Mark E. Nicely, PE
Manager
