Township of Indiana
3710 Saxonburg Blvd
Pittsburgh, PA 15238

**Re: Maintenance Project Notification - Sealcoat Repair
Township of Indiana, Allegheny County**

This letter serves as notification of a highway maintenance project that is located within the Township of Indiana, Allegheny County. The Pennsylvania Department of Transportation plans to perform work on the following routes:

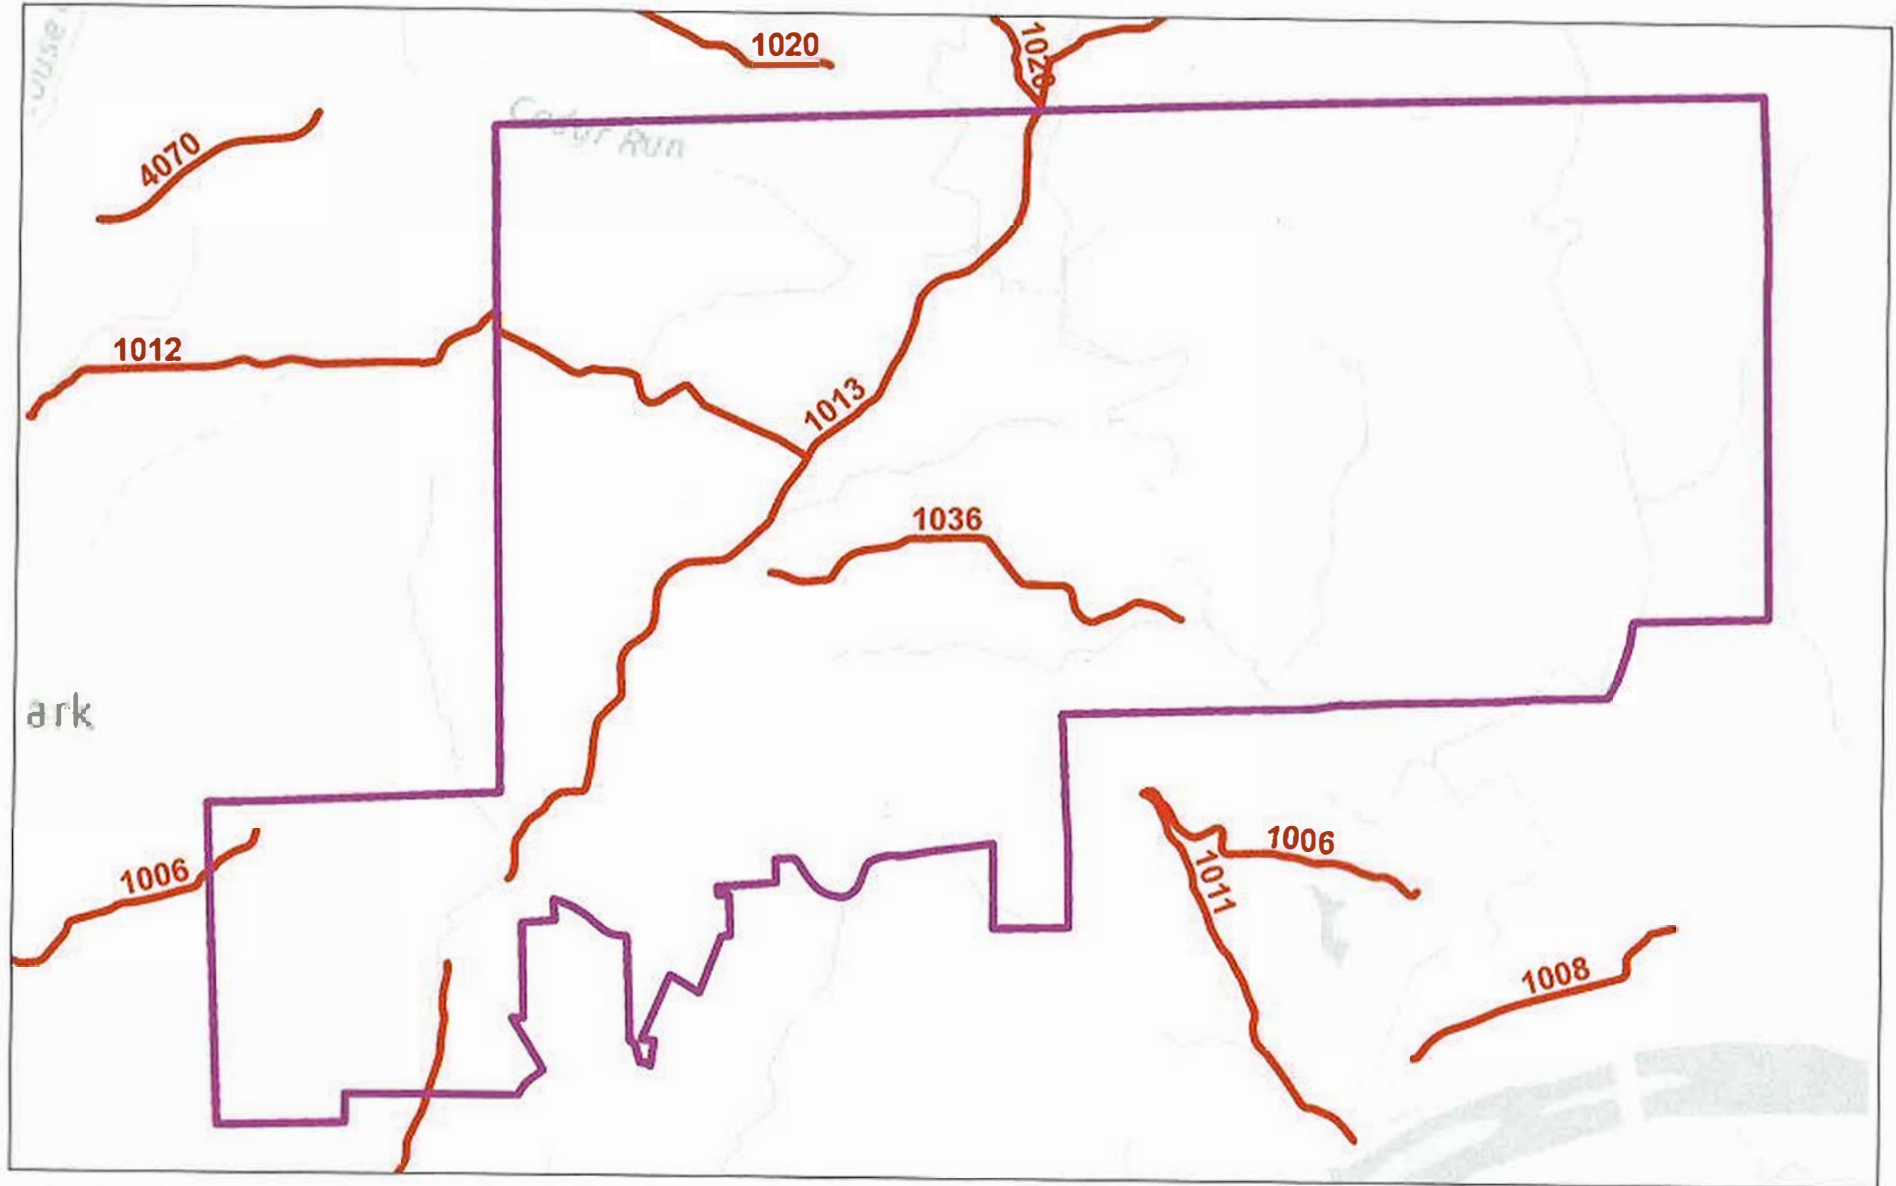

- State Route 1013 Saxonburg Blvd
 - O'Hara Township line to West Deer Township line
- State Route 1012 Church Lane
 - Hampton Township line to Saxonburg Blvd
- State Route 1036 Indianola Road
 - Dorseyville Rd to SR 910

Attached is a map showing the location of the project within the municipality. The general scope-of-work for this maintenance project consists of sealcoat repair (tar/chip) and line painting. Traffic will be maintained during all operations. Temporary on-street parking restrictions may be necessary and will be coordinated with the municipality in advance. Some overnight work may be required on high volume roadways.

Work will begin in April and will last throughout the Spring and Summer as time and resources permit. Our sealcoat program is an essential maintenance activity used for extending the longevity of the roadway. Signs will be posted in advance of this operation.

Protecting, covering, or adjusting municipal owned facilities will be your responsibility. In addition, the restriping of stop bars and crosswalks will also need to be completed by your municipality once our sealcoat project has been completed.
